## Pass Your Present to the Left

If the player has a Present, keep passing Left

## Unwrap

If you don't have a Present, EVERYONE that does Unwrap a Layer

## Pass All Presents to the Right

Whole Group Participates

# How To Play This Game?

The game can be played with any amount of presents. There can be one to fight over, one present for each player, or a mixture of naughty and nice gifts (in any quantity).

1. Print out the Dice Rule Sheet
2. To begin, take turns rolling the dice (from youngest to oldest)
3. When someone rolls a 6, they pick up a present of their choice until all presents are picked up. (you can use as many presents as you like)
4. The Game then begins and everyone starts rolling the dice
5. You must do the command on the sheet that corresponds with the number you roll
6. Each player has 10 rolls in total
7. If you unwrap the last layer, you win!
8. Otherwise, once the last player has rolled their last roll, whoever is left with their gifts gets to keep them
